

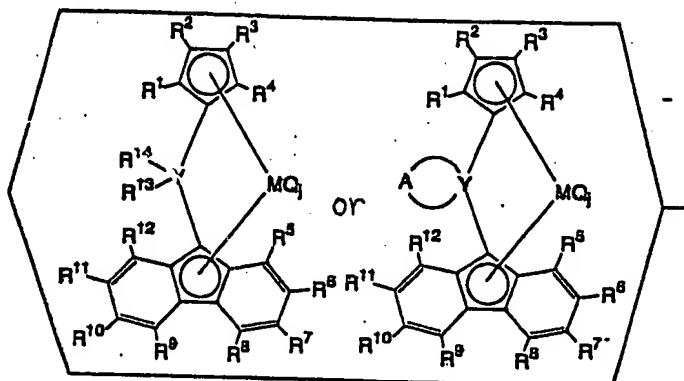

Fig. 1

Transition metal component

- M: metal of Group 4 of the periodic table
 R³: hydrocarbon group, silicon-containing hydrocarbon group
 R¹, R², R⁴ - R¹⁴: hydrogen, hydrocarbon group, silicon-containing hydrocarbon group
 Y: carbon or silicon
 A: divalent hydrocarbon group
 Q: halogen, hydrocarbon group or the like
 j: integer of 1 to 4

Organometallic component

(Organometallic compound)

(Organoaluminum oxy-compound)

(Ionizing ionic compound)

(Co)polymerization of olefin

Third component

(Carrier)

09857687-060801
